RESIDENT TAFT DELIV- ERS ANOTHER SERMON

de Most Impressive Talk at Corner-Stone Laying of Universalist Church in Portland.

RTLAND, Oregon, Oct. 4.—dent Taft preached another ser- this time at the cornerstone of the First Universalist h in East Portland, Sunday. e President handled the silver l and worked hard to see that tone was properly adjusted. e President referred to his va- church experiences and in con- n said:

o church in this country, how- humble it may be, that preaches octrine of true religion and true lity, will lack my earnest sup- to make it more influential when- opportunity offers."

e President's train left at 10:10 p. ver the Southern Pacific for Sac- nto, Cal.

. Taft attended the morning ces at the First Unitarian church ortland and listened to a sermon ev. W. G. Eliot, Jr. Afterwards as the guest of honor at a lunch- tendered by Senator Bourne.

the early afternoon the Presi- visited St. Mary's Roman Cath- school and made a five-minute ess to the school children, in h he declared that loyalty to the ch meant fidelity to country.

e line of march followed by Presidential party to East Port- was crowded and there was ring all along the way. At the erstone laying he said:

Cornerstone Sermon.

don't know that anyone ques- the propriety of my being here officiating on such an occasion his, or that an explanation of any is called for. But I want to say I believe it to be the duty of President of these United States to welcome and to suggest every instrument by which the morals and religion of the community may be elevated and maintained. Not long ago I officiated at the cornerstone laying of an orthdox Congregational church in Washington. Then I appeared in the pulpit of a Jewish tabernacle at Pittsburg. But a few days ago I helped to lay the cornerstone of a Catholic institution at Helena, Mont.

"And now it is my great pleasure to assist here today in laying that cornerstone of this Universalist church, which, like my own, the Unitarian church, is known as a liberal one.

"I am always glad to be present at such occasions as these, for I believe the cornerstone of modern civilization must continue to be religion and morality."

The President told some of his experiences with the Catholic Church in the Philippines and then said that on the occasion of his visit to Rome he ventured to say to the Pope that while in America the sentiment was strong for the separation of Church and State, there was nothing in the American Government or American people that opposed the Church or its highest development; that in no European country had the Catholic Church flourished as it had in America; that in this country the Catholic Church received from the Government and State officials only that treatment accorded to every other denomination.

A Time of Toleration.

"I think we have reached the time when the churches are growing together," continued the President, "when there is less bitterness of denominational dispute, and that no matter what creed we may follow, the churches are beginning to realize that they must stand shoulder to shoulder in the contest for righteousness; that we all stand for the fatherhood of God and the brotherhood of man.

"I am an optimist. I believe we are much better today than we were fifty years ago, man by man. I believe we are more altruistic and more interested in our fellow-man than we have been at any time in the last fifty years. Of course you hear from time to time of instances of selfishness and greed, but the only reason these instances are given prominence is because we condemn them the more and believe that in calling attention to them they will be made more and more infrequent.

"No church in this country, however humble it may be, which preaches the doctrine of true religion and true morality, will lack my earnest support to make it more influential whenever opportunity offers."

President Taft's special train last night began wending its way down the fertile Willamante valley, en route to Sacramento, where the President will speak today.

STARVING, AN ESKIMO ATE HIS OWN CHILD

THE TRIBE ATTACKED HIM, BUT HE BEAT THEM OFF.

Horrible Stories of Shipwreck and Starvation Come From the Far North.

ST. JOHNS, N. F., Oct. 4.—Tragedy in the Far North formed the burden of the news brought to port yesterday by the Hudson Bay Company's steamer "Adventure," which arrived with the crew of the lost Dundee whaler "Paradox," and the story of an Eskimo, who driven to a cannibalism by starvation, ate his child.

The "Paradox," one of the fleet of whalers, met the fate of her companion ship, "Snowdrop," when she was crushed in the ice floes off Baffin Land early in August a year ago. The crew, with scanty provisions, made their way over the broken ice toward the mainland, and were picked up by the steamer.

The Hudson Bay mounted police report, through dispatches brought by the "Adventure," the cannibalism of the starving Eskimo. The man's fishing and hunting season had been a failure, and driven mad by hunger, he cut the throat of one of his children and then ate the little victim.

When the man's neighbors learned of the horrible crime they attacked him according to the primitive law of their race. The outcast beat off all assaults, shot down several of the attacking party and escaped into a wilderness. His fate is unknown.

OFFICER SAVES FIEND FROM AN ANGRY MOB

Negro Charged With Criminal Assault On Woman Near Orlando is Lodged in Jail.

Special to The Sun.

ORLANDO, Fla., Oct. 4.—This section is exicted to a considerable degree over the arrest of Ben Hamilton, a negro who is charged with criminal assault upon Miss Ella Merritt at Lockhart, a village located near Orlando, on Saturday afternoon.

The victim of this heinous crime says the negro came to her house while she was alone, choked her into insensibility, and after accomplishing his purpose left her on the floor of the room in an unconscious condition. She remained in this condition until the arrival of her brother, some time later, when an alarm was given. Officers at Orlando were notified, a posse was formed, and after scouring the woods all of Saturday night and Sunday morning, Hamilton was arrested at Apopka about noon yesterday. The negro was taken before Miss Merritt for the purpose of identification and she identified him as her assailant. He was quickly brought to Orlando and is now in the Orange county jail.

Hamilton would have undoubtedly been lynched had the angry citizens of the Lockhart and adjacent territory found him, they having became much wrought up over the crime, but the officers hurried the man to prison in so short a time that there was no chance for a mob to get in its work, and in fact, before the people were aware that the right party had been apprehended.

This was the second time that Miss Merritt has fallen victim to such an outrage, as a white man was tried for a similar offence upon her a few years ago, but was acquitted.

Miss Merritt is about fifty years of age and delicate.

JESSE E. BURTZ.

Brutal Negro Beats His Baby to Death With Strap

A negro at Cochran's still, near St. Teresa, on Friday of last week, beat his seven-months-old baby to death with a strap because the baby annoyed him by crying.

Witnesses declare that the father picked the child up from the floor where it was lying, held it in one hand and beat it to death with a strap. He then dropped the body to the floor, and finally kicked it into the yard. The mother ran to the little quivering body and picked it up. And as she held it to her breast she discovered that life was extinct.

The father, under threats to kill her if she told anyone of the occurrence, got a promise from the mother that she would not tell anyone how the child met its death, and in this way she saved herself from falling a victim to the blood-lust of the brute whom she called husband. Escaping from the clutches of the murderer, she told men of the turpentine camp of the brutal murder and the murderer narrowly escaped a lynching at the hands of the people living in the neighborhood.

Complaint of the murder was made to Justice [illegible]Wathen at Carrabelle and he issued a warrant of arrest which was duly executed and the man finally lodged in jail at Apalachicola.—Apalachicola Times.

He was carried to the police station, the poison taken from him and a formal charge of disorderly conduct docketed against him to keep him in custody.

"Asked the reason for his action, the sufferer said that the team's manager had left the city, leaving members of the organization without funds. He said money was coming to him but he had not received it.

"Chief Sanders of the police was asked at 1 o'clock yesterday afternoon to wire and stop the alleged fleeing manager from this place at Flomaton. As that was beyound the chief's jurisdiction, he referred the parties to the sheriff."

Curley was with the Indians when they played the Oak Halls in this city, about a month ago, and was one of the best players on the team.

DROUTH AFFECTING CROPS.

Sweet Potatoes and Sugar-Cane Damaged to Considerable Extent.

W. M. Blitch of Santa Fe is authority for the information that the drouth is greatly affecting crops in the northern part of the county.

He stated to the reporter on Monday that even sugar-cane and sweet potatoes were suffering as a result of the continued dry weather and it is utterly impossible to get fall gardens started. Cane is withering in the fields, while the potato vines are dying as a result of the continued dry weather.

Tanks Being Removed.

In order to make room for the freight depot of the Seaboard the large oil tanks of the Standard Oil Company have been removed to the adjoining block. A gasoline tank is also being placed on the new site, which will better the facilities of the company.

To Protect Dry Half of Bristol Against Drunks

BRISTOL, Tenn., Oct. 4.—To protect the Tennessee half of Bristol, which is "dry" against what is described as a "threatening deluge of drunks" from the "wet" or Virginia half of the city, Recorder T. J. Burow will impose a minimum fine of $25 for drunkenness and declares "there is no guarantee that the fine will not be raised to a larger amount."

This action of the recorder in giving notice of the increased minimum fine for drunkenness was taken because the saloons of the Virginia half of the city were thrown open in accordance with the court decision declaring legal the local option election of July 8, which was won by the "wets."

In preparation of the opening of the saloons in the Virginia half of the city, ten solid carloads of whiskey, beer and other ardent spirits reached Bristol during last week. While the Tennessee half has raised the minimum fine for drunkenness, the Virginia city will continue to impose a $10 minimum fine also. Some of its people say that the fine should be lowered since the opening of the saloons.

ALASKA'S FINE SHOWING AT SEATTLE EXPOSITION

EATTLE, Oct. 4.—The thousands visitors to the Seattle Exposition e had a fine opportunity to view treasures or assets of the vast itory of Alaska. The exhibit has ght to light a remarkable fact connection with Alaska, and that hat it is a country where farm ucts can be produced in larger ntities than is generally supposed. describing the agricultural pos- ities a correspondent says that les that can be grown in a short on, and under the fostering care of James Wilson, secretary of agriculture, a considerable area of land is now under cultivation. The agricultural department maintains three experiment stations in the territory in order to demonstrate what can be done and how to do it. Sheaves of wheat, barley, oats, rye, bundles of clover, timothy and redtop, potatoes, cabbages, cauliflower, turnips, peas, lettuces, radishes, rhubarb and other "garden truck" are exhibited, and the signboard says that 50,000,000 acres of agricultural land are available for settlement.

STAKED HIS LIFE ON TOSS OF A COIN AND LOST

LOS ANGELES, Cal., Oct. 4.—David Eldridge, the mine owner who disappeared in the desert several weeks ago, staked his life on the toss of a coin and lost, according to Malapai Mike, a prospector, who was the last person to see the missing man. Parties have searched the desert in vain for Eldridge and have given him up for dead.

Mike says he and Eldridge, who was the son of Benjamin Eldridge, a wealthy Illinois manufacturer, started for Telescope Peak to inspect a power site. On the way they lost most of their provisions and all but one of their burros. When their water supply was reduced to five gallons, Mike says Eldridge suggested the tossing of a coin to see which should take the burro and make a dash for Greenwater for aid. Mike won, and taking one gallon of water, left his companion.

On arriving at Greenwater, Mike sent a party in search of the missing man, but no trace was found.

SERIOUS CUTTING ON SATURDAY NIGHT

WILL STROBLE BADLY USES UP ANOTHER NEGRO.

Case of Serious Nature and Mayor Davis Will Probably Turn It Over to County.

A serious cutting affray was committed in the northwestern part of the city Saturday night, when Will Stroble, a well-known negro hackman, slashed Chas. Gist, another negro, and the injured man is reported to be in a serious condition, while the negro that did the work is held without bail.

The case came up on the Mayor's docket Monday morning, but as the injured negro was unable to appear at court, and the nature of the case was grave, Mayor Davis took the matter under advisement and will very likely turn Stroble over to the county authorities at once.

Gist, the injured negro, is a stranger here and had accompanied a woman home who lives near the section houses on the A. C. L., and was asleep at the time the attack was made upon him by the other party, who run him out of the room and after getting him on the railroad, succeeded in making four ugly gashes on his person, his arms, back and stomach being cut.

Dr. Ayer, who was summoned after the man had traveled a distance of about a mile to another house, stated that the wounds were not necessarily fatal, but were dangerous, and that the party had lost considerable blood before he reached him. It required something over thirty stitches to sew up the wounds, the longest and most serious one being from his side across his stomach, and fully fifteen inches in length. His muscles were also cut and the doctor is of the opinion that the weapon was a razor instead of a pocket knife.

Handy Hughes, who was apparently as handy with his hands as his name implies, was handed $5 and costs for slapping a woman on the streets Saturday night.

The former case will be called again this morning, provided the injured negro is able to attend court, and in the meantime Mayor Davis will have decided whether or not to turn the case over to the county.

EDUCATIONAL CONFERENCE.

Gainesville, Fla., Oct. 4, 1909.

To the Citizens of Gainesville:

The plans for an educational campaign in Florida have been definitely settled and the purpose clearly and distinctly stated in the propaganda endorsed by the Conference for Education at Jacksonville, September 4th.

The movement is a part of an educational renaissance. It means to "banish ignorance and replace it with intelligence; provide facilities for education and compel the use of such facilities; to create such standards of intelligence as will make ignorance a conscious discredit, not to say disgrace."

When you study the opportunities of usefulness this movement affords, your responsibility as a servant of the community and your work for public utility, I do not believe we need make a second appeal for your good will and loyal assistance.

All that we ask of you at present is that you urge every man, woman and child in a radius of ten miles of your home to attend the Educational Rally to be held in Gainesville on October 8th; request the ministers to speak a few words in behalf of the movement from their pulpits, and ask the local papers to give it prominence in the editorial columns.

The primary objects of the campaign are to awaken interest in public education, to devise ways and means of supplying the schools with proper apparatus and libraries, to force the incompetent teacher to seek other means of obtaining a livelihood and to make Florida, educationally, rank first in the Southern States.

I trust you will give the educational workers who will visit you on October 8th at 8 p. m., a large audience.

Very respectfully,

GEORGE M. LYNCH,

General Manager Florida Educational Campaign.

WALDO NOTES.

WALDO, Oct. 4.—Mr. and Mrs. Harvard returned from their trip North, on which they took in the Hudson-Fulton Celebration and Washington city, with other interesting points.

N. C. Pettit has for a few days had malarial fever and is quite sick. His numerous friends are quite solicitous as to his attack.

D. A. Denmark has removed from Starke here and has employment on the S. A. L. railroad.

A. J. Bowen, now of Tampa, has sold his place near Millican's still to J. N. Strickland, who has been renting and living on it for a year or more.

Orlando Weeks has been thrown off duty for several days by the misfortune of sawing his thumb. His new barber shop between Strickland's block and the Entenza building is about completed and he will move from the old stand.

The Confederate veterans were pleased to receive their vouchers for pensions under the new law. Justice Tillis fills out their papers free of charge, which is much appreciated.

The public school has opened under most favorable auspices.

Mr. and Mrs. T. M. Cauthen are at Fargo, Ga., near where his shingle mill is located.

Mrs. J. R. Wilkerson, Mrs. W. C. Hicks and Miss Daisy Hicks attended the Sunday school and Epworth League institute at Williston and report an interesting occasion.

Mr. and Mrs. Hugh Williams, who sold out their mercantile business some time ago, will build a brick store and resume business soon.

E. A. Turner's store, closed by the sheriff, is selling out at bankrupt sale at greatly reduced prices. This sale is a windfall to small purses.

Conductor W. T. McKewn and family, who have been away for months, have returned and are domiciled in the large residence lately renovated and repainted by Ed Renault. This estimable family are welcomed back.

Mrs. A. M. Atwater is receiving congratulations upon her appointment as postmistress, succeeding her late husband.

SANITARIUM NOTES

Dr. J. H. Hodges, the medical director of the Sanitarium, has decided to enlarge and refurnish some of the rooms and connect them with private baths. This will be a decided improvement, and when these rooms are completed it is believed they will be as comfortable and handsome as can be found in any Sanitarium in the South.

It is sincerely hoped the Board of Trade can induce the A. C. L. railroad to allow stop-over privileges here on through tickets. If this were done many of the invalids from the North, who now go further South, would pay a visit to the Sanitarium.

Anticipating cooler weather the Sanitarium is having several car loads of wood delivered on the grounds.

During the past several weeks many sick people from the surrounding towns have come to the Sanitarium for treatment, and in almost every instance they have been enabled to return to their homes entirely cured or greatly benefited.

The ladies of the city are reminded that gifts of flowers are always appreciated.

F. M. Hodges of Newberry, a recent surgical patient, has recovered and returned to his home.

Clarence Malphurs of Monteocha, who was brought to the Sanitarium in the midst of a severe attack of fever, has recovered and left for his home a few days since.

Arch McKinnon was enabled to return to his home at Palatka last week.

Mrs. H. A. Bailey of Hawthorn was a patient again last week.

D. B. Zetrouer of Rochelle, a recent surgical patient, was well enough to leave the Sanitarium a few days since.

C. F. Fountain of Raleigh is improving rapidly.

Mrs. B. M. Leverett has returned to her home at Worthington Springs.

Mrs. J. W. Thompkins of Worthington Springs has improved rapidly and will not have to remain at the Sanitarium more than a few days longer. Mr. and Mrs. Thompkins are the proprietors of the popular Hotel Worthington, and the many patrons of that well-known resort will be glad to know of her speedy recovery from a severe illness.

C. M. McQuarrie, of the University Experiment Station, has recovered from an attack of fever and resumed his duties with the University.

FOR CITY MARSHAL.

To the Voters of the City of Gainesville: A special election having been called on Tuesday, October 19, for the election of a Marshal to succeed Ben T. Arnow, resigned, I beg to announce that I will be a candidate for that office, and ask the support of my friends. Being thoroughly experienced along the line of police work, which has been gained by a practical experience, and being now acting Marshal, if my action in this capacity meets your approval, I ask your votes to be continued in office.

Sincerely, HARRY L. OWENS.

I respectfully announce myself a candidate for City Marshal at the special election to be held on October 19th. I am in the race until the polls close on the day of the election, and respectfully solicit the votes of my fellow-citizens, promising, if elected, to perform the duties of the office without fear or favor. Give me your support, and you will never have cause to regret it.

Women Suffer Agonies from Diseased Kidneys

And Most Women Do This Not Knowing the Real Cause of their Condition

These poor, suffering women have been led to believe that their misery of mind and body is entirely due to "ills of their sex." Usually the kidneys and bladder are responsible—or largely so. And in such cases, the kidneys and bladder are the organs, that need and must have attention.

Those torturing, enervating sick headaches, dragging pains in back, groin and limbs, bloating and swelling of the extremities, extreme nervousness or hysteria, listlessness and constant tired, worn-out feeling—are almost certain symptoms of disordered and diseased kidneys, bladder and liver.

DeWitt's Kidney and Bladder Pills have, in thousands of cases, been demonstrated as remarkably beneficial in all such conditions of female organism—affording the most prompt relief and permanent benefit.

As an illustration of what these Pills will do, Mrs. P. M. Bray of Columbus, Ga., writes that she was very ill with kidney trouble, and that she is now well—and that these Pills are what cured her.

They are very pleasant to take, and can in no case, produce any deleterious effects upon the system—as syrupy, alcoholic, liquid preparations are apt to do.

E. C. DeWitt & Co., Chicago, Ill., want every man and woman who have the least suspicion that they are afflicted with kidney and bladder diseases to at once write them, and a trial box of these Pills will be sent free by return mail postpaid. Do it to-day.

ANOPY WILL GET BETTER TRAIN SERVICE

ROAD COMMISSION AND A. C. OFFICIALS MEET MONDAY.

ens Asked the Railroad Commission to Give Them All Passenger Trains.

hat the people of Micanopy are etermined set is set forth in the of the meeting held there Monby the Railroad Commission, Suntendent Riddle of the Atlantic st Line and a number of citizens were interested in Micanopy's fare.

hey have persistently "hammeraway" at their train service and naged to secure the running of ins Nos. 9 and 10 into that place, ides the Citra, but not satisfied y asked that Nos. 39 and 40 be ced on the regular schedule into t place; and not only these trains, any others that were placed on the company to run into Micanopy, ich meant that they were to have rything that passed the junction.

his matter was taken before the ilroad Commission and they asked t Superintendent Riddle of the ast Line meet with them and the ople at that point on Monday for purpose of arriving at some setment of the matter as it now stands d which might prove beneficial to interests of all concerned.

It was soon seen that the request the Micanopy citizens could hardbe complied with, and another ovement is now in project which ll give them connection with all ains, carrying mail in and out from e Junction, as well as express and ssengers.

While nothing definite along this e has been settled upon, it is underood that a special engine and train ill be placed in commission between icanopy, Tacoma and the Junction meet all passenger trains if the tronage warrants, and it is more an probable that this method will e resorted to in order to place this rvice in effect and give it a trial.

The running of the regular trains and out of Micanopy consumes great deal of time on the regular chedule, and the first action would doubtless cause them to lose some travel over their road if they had this to contend with.

HAS HANDSOME OFFICES.

Dr. Waldo Is Now Located on East Side of the Square.

The handsome new offices of Dr. Geo. S. Waldo, located on the east side of the square, in the Broome building, have about been completed and the Doctor is now comfortably located in his new place of business.

To say that he has among the handsomest offices to be found in the State mildly expresses it, for here one will find all of the latest in modern dentistry, he having especially fitted up the quarters for the reception of furniture and fixtures which were specially ordered for the place.

Everything in the offices is made on a sanitary basis, the cabinets, work tables and the like being antiseptic and made from pressed steel, handsomely enameled. Everything is thoroughly sterilized and made of porcelain and glass, and removable from all of the trays and drawers. His antiseptic cabinet, sterlizer, bracket table, work bench, compressed air tank, and numerous other late appliances are only a few of the advantages he has in his new place.

The rooms are handsomely finished, the reception room being in white and buff, with mission furniture, while the operating and extracting rooms are finished in white with gold trimmings Another new feature is the private dressing and lounging room for ladies, and in all the place is one of the prettiest in the State.

A WARNING.

Since its introduction into the United States, the sales of Parisian Sage have been phenomenal. This success has led to many imitations similar in name. Look out for them, they are not the genuine. See that the girl with the auburn hair is on every package. You can always get the genuine at W. M. Johnson's.

Parisian Sage is the quickest acting and most efficient hair tonic in the world.

It is made to conform to Dr. Sangerbond's (of Paris) proven theory that dandruff, falling hair, baldness and scalp itch are caused by germs.

Parisian Sage kills these dandruff germs and removes all trace of dandruff in two weeks; it stops falling hair and itching scalp and prevents baldness.

And remember that baldness is caused by dandruff germs, those little hard-working, persistent devils that day and night do nothing but dig into the roots of the hair and destroy its vitality.

Parisian Sage is a daintily perfumed hair dressing; not sticky or greasy, and any woman who desires luxuriant and bewitching hair can get it in two weeks by using it.

Beware of imitations, look for the girl with the auburn hair on every package. Parisian Sage is now sold by leading druggists all over America and is guaranteed by W. M. Johnson to cure dandruff, stop falling hair and itching scalp in two weeks or money back. Fifty cents a large bottle. Made in America by Giroux Mfg. Co., Buffalo, N. Y., who will fill mail orders, all charges prepaid.

Let a want ad. negotiate a trade for you—of something you don't need for something you do.

SEABOARD FREIGHT DEPOT BEING MOVED

WILL BE ADDED TO THE NEW PASSENGER STATION.

All the Offices of Old Building Cut Off and Will Be Torn Away.

The old freight depot of the Seaboard which has stood the usage of Gainesville for the past several years is now being removed to a point about twenty feet north of its former position, where it will be converted into a practically new building.

The place that was used as a passenger station and ticket office has been cut away from the old building and left to stand there until they can get into their new offices, when this will also be torn away.

Carpenters who have been at work on this structure for the past number of weeks state that it will now be only a short while before the same will be completed, as they have succeeded in placing all of the heavy timber under the building and have started the work of moving.

It will be pulled in an easterly direction about forty feet in addition to being placed further north, and in order to give the required street room it was necessary to remove the large oil tanks of the Standard Oil Company.

The passenger station will be completed as soon as this building has been joined onto the new structure, and it has made a noticeable change, and at the same time greatly increased the facilities of the Seaboard for the handling of its passengers and freight.

The Baird Theatre.

The performance at the Baird Theatre last evening was a highly pleasing one and the place was greeted with another good house, which shows that the people are pleased with the efforts of the management in offering vaudeville. Mr. Schadrick, who will be here for the first three nights of the week, is a high-salaried man and has never before been secured in small places like Gainesville.

Every effort will be put forth to make the place one of the most attractive ever conducted in the city if it receives the patronage.

Ginnery Being Built.

The new Turner ginnery, the old plant of which was destroyed by fire at LaCrosse some few weeks since, is now nearing completion again and will shortly be running. There is considerable of the crop now in storage at that place which will necessitate the operation of the gins late into the season.

Don't think that piles can't be cured. Thousands of obstinate cases have been cured by Doan's Ointment. 50 cents at any drug store.

VETERANS' MEETING.

Elect Delegates to Annual State Reunion at Live Oak.

A meeting of Stonewall Camp, U. C. V., was held in this city Monday, which was largely attended by members from all sections of the county.

The meeting was called for the purpose of selecting delegates to the State reunion at Live Oak, which will be held in that city on October 20 and 21, when a large gathering of the "old boys in blue" are expected to be present.

The citizens of Live Oak have raised a special fund and propose to take care of them in grand style during these two days, and the following delegates and alternates, were chosen to represent Stonewall Camp: Horatio Davis and R. B. Weeks; alternates, L. W. Jackson and B. F. Williams.

Imperfect Digestion

Means less nutrition and in consequence less vitality. When the liver fails to secrete bile, the blood becomes loaded with bilious properties, the digestion becomes impaired and the bowels constipated. Herbine will rectify this; it gives tone to the stomach, liver and kidneys, strengthens the appetite, clears and improves the complexion, infuses new life and vigor to the whole system. 50 cents a bottle. Sold by W. M. Johnson.

Entertainment Postponed.

The entertainment of the Baraca and Philathea classes at the White House has been postponed until a later date, which will be mentioned in due time.

UNHAPPINESS DISPELLED.

Men and Women Unanimous About It.

Many women weep and wail and refuse to be comforted because their once magnificent tresses have become thin and faded. Many men incline to profanity because the flies bite through the thin thatch on their craniums. It will be good news to the miserable of both sexes, to learn that Newbro's Herpicide nas been placed upon the market. This is the new scalp germicide and antiseptic that acts by destroying the germ or microbe that is the underlying cause of all hair destruction. Herpicide is a new preparation, made after a new formula on an entirely new principle. Anyone who has tried it will testify as to its worth. Try it yourself and be convinced. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Judging from what some of the newspapers say about the farmers of Nebraska, they will soon be in the "swollen fortune" class.

How it will amuse the next generation to learn that their ancestors climbed to roofs and leaned out of windows, just to see a plain, everyday airship!

If Mr. Taft really sends all his promised recommendations to the next Congress, the last raise in salary for our overworked legislators would be almost justified.

Pierre d'A. Pratt, for many years one of the leading newspaper men of Florida, has assumed charge of the editorial and general news department of The Orlando Daily Reporter-Star, while the local news department is looked after by Jesse E. Burtz, of "Never Sleeps" fame. This team ought to make The Reporter-Star a "live wire."

Jim Alexander is reported as saying that he will "give" the vote of Volusia county to any man who runs against Frank Clark for Congress. Probably the voter himself will have a word to say about who his vote is given to. Our friend Jim has become entirely too inflated with his self-importance since his election to the Legislature.

The superintendent of schools in Philadelphia has published his plans for providing school children with inexpensive lunches. The experiment is to be tried in four of the city's public schools situated in congested districts, and the plan to be extended to the whole school system if it seems to be successful. The children are expected to pay 3 cents a day for their lunches.

It is to be a polar year in fashions in New York. The polar hat, the polar dress and the polar coat have already appeared. The polar shoes, the polar dress and the polar gloves and the polar furs are expected daily. Any woman who is so far behind the times as not to boast of at least one polar costume will be quite out of fashion's ways, and there is a great possibility of the fad being carried far enough to permit evening gowns a la pole also.

Mrs. O. H. P. Belmont of Newport and New York strikes a new and surprising note in the woman's suffrage movement. In an article published under this lady's name in a current magazine the movement is represented as an implacable class struggle between the sexes. Mrs. Belmont thinks that men will never concede the political equality of women without a measuring of forces—if not fight. Within a generation or so, according to her rousing prophecy, the women of America will publish to the men an ultimatum somewhat after this fashion: "Until you give us the ballot we will not marry you, we will not work in your places of business, we will have nothing to do with you, socially, industrially—any way." The women will never do anything of the kind—in our humble opinion, Mrs. Belmont.

THEN AND NOW.

The Hudson-Fulton celebration at New York was a reminder of the venerable age this country is reaching, and still more of the vast progress that has taken place in navigation and travel since Hudson sailed his little "Half Moon" up the river that now bears his name, and Fulton astonished and affrighted onlookers by his little, snorting "Clermont."

One has but to contrast the frail vessel of Hudson with the magnificent liners that now cross the same turbulent waters, and the crude slow Clermont" with the palatial steamers that now ply our great rivers, to realize the wonderful advance that has been made. And that advance is typical of the development made in the whole world of science and mechanics during the same period.

But the celebration has also served other purposes. It has reminded us of the sturdy, dauntless courage of Hudson and his crew in venturing practically into the unknown with such poor facilities, and of the hopeful perseverance and courage of Fulton in going on calmly with the building of his steamer in face of sneering incredulity. In all this it is cheering to reflect that the same qualities possessed by those two men whose achievements are so gratefully remembered are possessed in equal degree by Americans today. The stories of pioneer life, of struggle against almost overwhelming odds, and of winning victory from defeat, prove that the virility of this generation shows no decay.

Joseph Pulitzer, proprietor of The New York World, takes up his permanent residence in Berlin. The Germans welcome him with gusto in contrast to the flocking of rich Americans to Paris or London. He goes to the German capital with sixteen servants and will live in a most fashionable part of the town, having made for himself the most remarkable career of any immigrant from Prussia into the United States. The proportions of it are best seen in the undoubted fact that as an unofficial ambassador from the United States Mr. Pulitzer may easily do much to keep serene substantial relations of harmony between the United States and the great military power of Europe. It is not only possible. It is extremely well worth keeping in mind.

Astonishing statements are made by John Kenneth Turner in the first of a series of articles on Mexican peonage. After spending a year and a half in Mexico and visiting nearly every part of the country, Mr. Turner reports of his own knowledge that men and women are enslaved for life by the thousands—starved, beaten and sold. In our country peonage is occasionally discovered and the perpetrators prosecuted. It is never widespread. In Mexico, on the other hand, it is said to be common in a majority of States and cities. Slaves are not only used on the plantations, but as personal servants, as laborers, as household drudges.

"Commander Peary would not allow anything belonging to Dr. Cook to come aboard his ship. I was forced to leave the articles in a cache at Etah.—Henry Whitney." Yet Commander Peary felt free to take stores left by Dr. Cook and make use of them on his way to the pole. He was ready enough to put to use the unwritten law of making use of aid left by other explorers when in need in waste places. But he did not hesitate to violate the obligation existing in the same pact because of the bitterness of his feeling of Cook, or was it his fear of Cook's success? It is not a pleasant revelation.

Catarrh Cannot Be Cured

with local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials free.

DON'T WAIT FOR MACADAM.

We believe heartily in stone roads; but the notion that no road except a stone road can be a good road, has done great harm. Believing that every community should have just the highest type of road it can afford, we are very positive that the thing for most communities to do is to begin with the roads they have and make them better. Where a gravel road, costing one-third as much, or a sandy-clay road, costing perhaps one-tenth as much, will answer the needs of the neighborhood just as well—as in many cases it will—it is folly to try to build a macadam road.

Let us begin at the beginning and develop gradually. Asphalt, brick, macadam, gravel, sand-clay, simple earth—all these roads may be good roads, and there are localities where each of them will be the best road. Because we cannot cover our roads with stone is no reason we should give them over to mud-holes and ditches.

Certainly if macadam is a long way off, don't wait for it. Get something else.—Raleigh (N. C.) Progressive Farmer.

After a long and harrassing period of uncertainty and peril, beginning with the inauguration of President Gomez and marked by at least one tentative insurrection, many governmental blunders, numerous charges of corruption, scandals in connection with the purchase of arms, resignations of cabinet members and dire rumors of an impending third intervention, the restored republic of Cuba appears to have entered a zone of tranquility with reasonable prospects of fair weather ahead. The inception of this gratifying change marked the return from his summer vacation at Cayo Cristo of the president, who, since then, has given many evidences that he is the strong man of affairs which his friends have always maintained he would prove to be.

FOR CONSTIPATION

A Medicine That Does Not Cost Anything Unless It Gives Satisfactory Relief.

If you suffer from constipation in any form whatever, acute or chronic, we will guarantee to supply you medicine that we honestly believe will effect permanent relief if taken with regularity and according to directions for a reasonable length of time. Should the medicine fail to benefit you to your entire satisfaction we promise that it shall cost you nothing.

No other remedy can be compared with Rexall Orderlies for the easy, pleasant and successful treatment of constipation. The active medicinal ingredients of this remedy, which is odorless, tasteless and colorless, is an entirely new discovery. Combined with other valuable ingredients, it forms a preparation which is incomparable as a perfect bowel regulator, intestinal invigorator and strengthener. Rexall Orderlies are eaten like candy, and are notable for their gentle and agreeable action. They do not cause griping or any disagreeable inconvenience, and may be taken at any time, day or night.

We particularly recommend Rexall Orderlies for children and for delicate or aged persons, because they do not contain anything injurious. Unlike other preparations, they do not create a habit, but instead they overcome the habits acquired through the use of ordinary laxatives, cathartics, and harsh physic, and remove the causes of constipation or irregular bowel action that are not of surgical variety.

We want you to try Rexall Orderlies at our risk. We know of nothing that will do you so much good. They are prepared in tablet form in two sizes: 36 tablets 25 cents, and 12 tablets 10 cents. Remember you can obtain Rexall Remedies in Gainesville only at our store—The Rexall Store.—J. W. McCollum & Co.

GENERAL NEWS IN BRIEF

The schedule of the new tariff which places on the free list foreign art works more than 20 years old is producing some queer results at the start. There is reported from the large custom houses, notably New York, a flood of paintings and statuary never known before. The art room at the appraisers' office is crowded with examples. Among them is said to be a Van Dyck valued at $200,000.

Bishop Joseph C. Hartzell of the Methodist Episcopal Church, whose diocese is Africa, is actively engaged in the celebration of the diamond jubilee of missionary work in Africa which started with the work of Melvin B. Cox in Liberia 75 years ago, and during this year he expects to add $300,000 to the African fund. Ex-President Roosevelt made the first speech in this campaign before he left the United States, and it is to end with a speech of President Taft in New York on the last Wednesday of the year.

Investigations have been going on at the New York Botanical Garden to ascertain whether any of the trees now standing were in existence in 1609 at the time of Hudson's discovery. The immense white oaks, because of their slow growth after the first hundred years, were considered the most promising subjects for observation. Previous reliable data had fixed the average annual increase in diameter of the white oak up to the age of 477 years at 48.100 of an inch, after which age the annual layer is much thinner. By removing a small piece from the side of the largest white oak within the grounds of the Botanical Garden and carefully covering the spot with tar, experts have estimated that the tree on which the observation was made was 220 years old. With this as a basis for calculation it seems probable that a white oak with a wood radius of from twenty-five to twenty-seven inches is about 300 years old.

WOMEN MAKING A STUDY OF FARM WORK AND GARDENING.

WASHINGTON, Oct. 4.—Wandering through the huge white marble buildings of the Department of Agriculture at Washington you see many women in neat white aprons, some of them mere girls, bending over microscopes and test tubes. Their activities seem very mysterious, but when you inquire you learn that they are engaged in original research work relating in one way or another to farming or gardening.

The case of Miss Alice Henkel, a botanist in the plant bureau, is noteworthy, if only for the reason that she entered the establishment originally in an ordinary clerical capacity as a stenographer and typewriter. That was only a few years ago when a mere girl she came to Washington from Cincinnati. But she was the inheritor of scientific aptitude from a family in which there had been many searchers after exact truth in botanical and other lines, and she quickly took up plant study as a professional pursuit.

Miss Margaret Huddlesco is another young woman scientist in the Department of Agriculture. She hails from Kansas City, Mo. Not long ago she took a high degree at a local college of medicine and is now a full-fledged doctor. This she did in the intervals of her work as a pomologist—that being her particular specialty. Her most important business in the division of pomology is to give instructions by letter to people all over the country who want to know how to grow fruits.

IMMENSE SPOT ON SUN HAS BEEN OVERLOOKED

MILWAUKEE, Wis., Oct. 4.—An immense spot on the sun more than 30,000 miles in diameter, which has been overlooked apparently by other astronomers of the country who have their attention focussed on the planet Mars, has been discovered by Dr. James L. McGeary, the Marquette University astronomer.

Upon this spot, which is visible to the naked eye and which is in reality made up of four smaller spots, Mr. McGeary thinks may be placed at least part of the responsibility for the series of mysterious magnetic disturbances which upset telephonic and telegraphic services in America and Europe recently.

Mr. McGeary also believes that the proximity of Mars to the earth may have had an important part in the strange magnetic disturbances, the earth being in the magnetic field of both that planet, which he presumes to be magnetic, and of the sun, the magnetic influence of which he contends is probably increased by the gigantic spot upon its face.

The influence of the northern lights which are now plainly visible in this part of the world at night and the increased power of magnetic earth currents also play a part in McGeary's explanation of the recent disturbances.

A Banquet

Spread before you would do you no good if you couldn't eat. What good can food do a child when as soon as it enters it's stomach it is eaten by worms. That's the reason your baby is ailing, cross, pasty-faced and thin. Give it White's Cream Vermifuge. It will expel the worms and act as a tonic for the child. Sold by W. M. Johnson.

THE PRICE OF GENIUS.

What It Means to Man to Be a Pioneer In Thought.

To be a pioneer in thought is to stand alone with nature, not for a few minutes, but for life. The isolateness of the few great minds of each generation of men is utterly undreamed of, for want of understanding, by those about them. Yet think what it is to pass one's days in a thought world where the thinker roams alone; to grapple with problems the very terms of which are beyond ordinary comprehension and the solution appreciated only in years to come; to contemplate in lonely ecstasy, after still lonelier despair, the revelation that comes with months and more of pondering. When some one asked Newton how he came to make his wonderful discoveries he replied, "Simply by always thinking about them." Consider Kepler toiling year after year fruitlessly for some ratio that should link the planet's motions by a general law, calculating assiduously and putting hypothesis after hypothesis aside as he found it would not work until at last, after almost inconceivable toil, he hit upon the one that would.

As if this loneliness by nature were not enough, it must needs be accentuated by man, for he rises in such cases in chorus to condemn. Consider Darwin, in patient study, testing the working out of natural selection and adding fact to fact, only to have the whole denounced as ridiculously absurd. Think you the denunciations of the master while living are wholly compensated by the plaudits after he is dead? The loneliness of greatness is the price men make the genius pay for posthumous renown.—Percival Lowell in Atlantic.

THE COOK'S FAULT.

No Wonder the Bird Was Not Tender When Served.

One of the most annoying things about swans is that they live to an extremely great age and that it is impossible for the ordinary observer to guess what their years may be. President Grover Cleveland once had an amusing experience with some swans, according to a writer in the American Magazine. He had been in the south shooting and brought home a number of wild swans, one of which he sent to each member of his cabinet and to some other associates.

"All the boys," said Mr. Cleveland, "thanked me politely for having remembered them, but none of them seemed to have much to say about how they enjoyed the birds.

"Carlisle, I found, had his cooked on a night when he was dining out. Another, when I asked him, said he hoped I wouldn't mind, but he had sent his home to his old mother. Thurber didn't mention his bird at all for two days. Finally I asked him about it.

"'Thurber, did you get that swan all right?'

"'Yes, sir—oh, yes, I got the swan all right, thank you,' and he bent over his desk and seemed very busy.

"'Fine bird,' I said.

"'Yes, sir, fine bird,' and he went on working.

"'Enjoy eating him, Thurber?'

"He waited a minute, and then he said: 'Well, sir, I guess they didn't cook him right at my house. They cooked him only two days.' And he went on working without cracking a smile."

Most women are troubled with kidney complaint, and you know very many serious and even fatal diseases result from these neglected kidney troubles. If you will take DeWitt's Kidney and Bladder Pills as directed, you may be confident of good results. Try them and see how really good they are. Beware of imitations, pills that are intended to deceive you. Be sure you get DeWitt's. Sold by all druggists.

A Dandy of 1770.

From an English newspaper printed in the year 1777 is the following description of a dandy: "A few days ago a macaroni made his appearance in the assembly rooms at Whitehaven, dressed in a mixed silk coat, pink satin waistcoat and breeches covered with an elegant silk net, white silk stockings with pink clocks, pink satin shoes and large pearl buttons, a mushroom colored stock covered with fine point lace, hair dressed remarkably high and stuck full of pearl pins."

A Shaking Up

May all be very well so far as the trusts are concerned, but not when it comes to chills and fever and malaria. Quit the quinine and take a real cure—Ballard's Herbine. Contains no harmful drugs and is as certain as taxes. If it doesn't cure, you get your money back. Sold by W. M. Johnson.

Edible Flowers of India.

Many edible flowers, it appears, are to be found in India. One of the most appreciated grows on a tree about which we have very little information, but which in the country itself is named the "mhowad." The natives consume an enormous number of these flowers, whose pale yellow corollae are pulpy and thick, and they prepare them in various ways.

When they are fresh they are put in cakes, to which they give a sweet flavor, but they are more especially used for making bread after they have been dried and reduced to flour. By allowing them to ferment a kind of wine is produced, and by distilling them a brandy is obtained of which the Hindoos are very fond.—Vulgarisation Scientifique.
